

Denver Boulder Couriers Seeks Web Developer

Immediate opening.

We are seeking an individual who is experienced in custom web development for enhancement/overhaul of current website. Main focus is on the end user experience to better allow customers to utilize our services through our website.

Main required skills and experience:

- Minimum of 3 years experience in a professional web development role
- 2 years experience with Wordpress
- Web services and API development
- Strong object-oriented programming skills with a proven background in custom E-Commerce and database-driven website development
- PHP, MySQL, Javascript (jQuery and/or MooTools), AJAX, CSS, Internet Security
- Credit card payment processing (Authorize.net)

Other skills and experience that could come in handy:

- Apache web server and email administration
- Python
- Mobile App development

Candidate Characteristics

- Team player with a can-do attitude
- Passionate about your work and getting it right
- Hits committed timelines while maintaining an agreed upon budget
- Ability to clearly communicate complex and technical concepts
- Excellent organizational skills
- Creative problem-solving skills
- Enjoy working as part of a team and independently
- Willingness to learn and adapt to new challenges
- Candidate can work remotely
